SST Tool Shipment:

UPS tracking information for all dealers has been provided to your District Service Manager. Lost tools can be ordered via Dealer Recall Help initially but will be added to eSTORE in early 2022.

Concern Outline

On Mazdaspeed6 and RX-8 vehicles, improper installation of the fuel pump mounting rings may lead to cracking of the rings, causing fuel leakage. In addition, on RX-8 vehicles, due to insufficient heat resistance at the top side of the fuel tank, the fuel pump mounting rings may deteriorate due to heat exposure from the engine and exhaust pipe which may also lead to cracking of the rings, causing fuel leakage. The subject vehicles with such fuel leakage from the fuel pump mounting rings may result in increased risk of fire in the presence of an ignition source near the vehicle.

For all subject vehicles:

Dealers will install new fuel pump mounting rings on Mazdaspeed6 and RX-8 vehicles. In addition, dealers will add a thermal insulation pad to the fuel tank on RX-8 vehicles. There will be no charge to vehicle owners for this service.

Repair Parts:

Beginning on Monday, November 15th the necessary parts can be ordered from the Restricted Parts Ordering screen in eMDCS. To complete an order for these parts, you will need to include the VIN number associated with the repair order, and the VIN must be Open for Recall 51211. The part numbers for this recall repair can be found in the Repair Procedure documents. Because of the limited number of affected VINs, and the age of the vehicles, Mazda is not able to send push shipments for this repair.

Owner Notification:

Mazda will notify owners of affected vehicles for this campaign by November 18, 2021. Vehicles will display in eMDCS as Open, November 18, 2021.

Customer Reimbursement:

Customers who paid to have repairs completed prior to the launch of this campaign will be able to apply on www.mazdareimbursement.com. In order to be reimbursed for prior repairs, a completed repair order and proof of payment will be required to be uploaded with the completed application.

Important Safety Notice:

The National Traffic and Motor Vehicle Safety Act prohibits the delivery of any subject vehicle without performing the necessary repair for defects or failures. Failure to perform applicable recalls before delivery can result in extensive dealer fines and penalties from the Federal Government. Therefore, you must complete this recall for all affected vehicles in your inventory prior to delivery.
